At Marysville Schools, we value rigorous curriculum and professional development opportunities for our students and staff throughout the school year. While summer is an excellent time to relax and recharge, it is also a time to continue to build on our strong educational foundation. Both staff and students are taking the opportunity to use this summer as a time to extend their learning and skill base.

Summer Institute
All MEVSD staff members were invited to attend the Summer Institute at the end of May. This was professional development aligned with social emotional learning and personalized learning in the 21st century led by teacher leaders, coaches, district leaders and specialists. This allowed the district to come together and celebrate the 2018-19 school year by honing their skills for the coming year.

Job Specific Professional Development
Additionally, the district offers a variety of job specific professional development. Over the summer months, there will be an Administration Retreat where all principals and academic administration collaborate for two days in June. A two day Coaches Camp is an opportunity for instructional coaches and leaders in the district to come together. The district also values the importance of team-building within the schools. Each principal has developed a building level staff retreat to work toward individualized building goals.

Other Professional Learning Opportunities
Some of our staff are seizing the chance to enhance their learning by engaging in conferences and in other professional learning opportunities. Many staff members also engaged in blended learning courses; engaging in book studies or digital coursework led by our district leaders and coaches. Similarly, some of our students have opted to engage in a variety of summer camps.

Educational Programs for Student Growth
Summertime allows our students the freedom to explore growth outside of the traditional classroom. Some students choose sports teams, library programs or summer camps to enhance their social, emotional and educational well being. We also encourage our students to explore programs like Cooking Camp and Classroom Antics™ Tech Camp by providing links on the school website. This year our district also offered traditional summer school courses: Algebra I, Geometry, Algebra II, English 9-12, World Studies, US History, Physical Science, Biology courses. The high school also offered AIR tutoring and testing over the summer.

Marysville values continued growth in education for staff and students alike. With the rich educational opportunities offered over the summer, staff and students will be ready to tackle a successful 2019-2020 school year.
Now Hiring: Become a Substitute For Our Marysville Schools

Do you love working with children? Are you retired or a stay at home parent with school aged children looking for extra income? We have an amazing opportunity for you!

Marysville Schools is seeking classroom substitute teachers. We also have daily needs for non-teaching substitutes in the areas of custodians, bus drivers, special education aides, office/building aides, food service, and before and after school assistants.

According to Director of Human Resources, Lynnette Focht, “The benefits of being a substitute in Marysville Schools is the joy of working with our kids and the flexibility. You can select the days you want to work and the buildings you want to work in through our online Absence Management System.”

Marysville long-term substitute teacher, Nicole Rohrs explains “Being a substitute teacher in the Marysville School District has provided me with a way to earn income for my family, use my degree, and keep a flexible schedule that allows me to be there for my kids and manage their busy schedules. I can choose when I work and what kind of positions I want. I also find being a substitute teacher rewarding and challenging. I know I am making a positive impact in the lives of the young people in my community.”

Teaching substitutes are employed by the Educational Service Center of Central Ohio and candidates can apply at https://escco.org/substitutes/. The ESC is offering an onsite orientation session in Marysville, Ohio on August 27, 2019 but you must register first on the ESC website.

“We want to bring the training to our hometown for convenience, but it's also a great way to speak directly with Marysville staff about all that goes into the job,” added Focht.

Non-teaching substitutes can apply by visiting www.marysville.k12.oh.us, select Employment and apply to be a substitute in the district.

All substitute candidates must complete a BCI/FBI background check along with a local screen and depending on the position must also hold a substitute license or aide permit. The district will train bus driving personnel and all substitute teachers attend a ½ day orientation through the Educational Service Center of Central Ohio (ESC).
